

SAUNA

After more than 32 years of international experience in water technology with particular expertise in swimming pool pumps and filters, Emaux has evolved into a major force spanning 5 continents and appointing more than 200 distributors worldwide. Our research facilities and state of the art manufacturing plant ensures quality products that are specified where reliable and efficient filtration is critical. After considerable research into the Australian market - Emaux Water Technology Australia was launched in 2008 with headquarters in Perth. Following Emaux principles – all Emaux products were tested to meet Australian Standard AS/NZS 60335.1 and distribution and servicing established in all key centres.

EMAUX

Pool Pumps and Filters

The clear choice in water technology

Emaux Water Technology (Australia) Pty Ltd 12 Kembla Way Willetton WA 6155 Australia t:1300 293 633 e:info@emaux.com.au w: www.emaux.com.au

SAUNA HEATERS

Sauna Heater is the “heart” of all saunas. It is the most important component because it is where heat is generated. Emaux Sauna Heaters are made from stainless steel for durability and with the large stone capacity our heaters provide the most effective and efficient heat exchange and air flow.

BC30, BC35
